DOUBLE TRAGEDY OCCURS AT LUNDBRECK FALLS

The entire district received a shock at a late hour on Sunday evening last, when it was learned that a car containing four persons had gone over the precipice at Lundbreck Falls and into the raging torrents some sixty feet below.

The accident happened at about 9 p.m., when a Ford touring car, containing Jeffrey and Gladys Knowles (brother and sister), Tony Nicholas, all of Coleman, and Annie Parsons, of Frank, while turning to move away from the popular holiday resort, suddenly slipped from control, and before any of the occupants could extricate themselves they were being carried over the brink. The car landed apparently head first and after hitting the rocky ledges below toppled forward, landing with wheels up. Young Knowles managed to emerge from under the wreckage and immediately extricated the Parsons girl, who had been seated beside him. The Knowles girl was still imprisoned, and was not recovered till the arrival of C. Madden and others to the rescue. The Nicholas boy had disappeared and was lost to view, believed to have been swept away by the raging current. Efforts to resuscitate the Knowles girl proved futile and she died within an hour or so of the accident.

The body of the Nicholas boy has not yet been recovered, though search parties have been on the grounds day and night. It is thought, however, that the body will be found but a short distance away, as that particular part of the river has numerous eddies and still water places, in any of which it may rest until the water lowers and clears.

The remains of Gladys Knowles were taken to Coleman, where interment will take place tomorrow afternoon.

Tony Nicholas was the eldest son of Mr. and Mrs. Charles Nicholas of Coleman, and was very well known and popular. Gladys Knowles was daughter of Mr. A. E. Knowles, of Coleman, while Jeffrey is a son.

This accident brings forcibly before the authorities the necessity of a substantial guard rail being placed around the edge of the cliffs overlooking the falls.

To anyone viewing the scene of the accident, it seems a miracle how anyone could have come out of it alive.

An inquest is being held, and adjournment has been made to Tuesday next to permit the Knowles boy and Parsons girl giving evidence.

AL. DOYLE DIES SUDDENLY AT FORT STEELE

The death of an old-timer of the Kootenays occurred at Fort Steele on Sunday night, May 19th, when Al. Doyle, well known pioneer, was found dead in his bed, death due to heart failure.

Mr. Doyle took up residence in the Fort Steele district in 1885, and old timers will remember him as driver of a stage from Golden to Canal Flats. He was 65 years of age and single. He had been identified with the development of the district in many ways, being interested in gold and other mining prospects and in timber limits. He was also interested in the Sumburst coal properties in Blairmore.

The remains were laid to rest on Wednesday last.

Mr. A. Muts, of Vulcan, an old friend of Mr. Doyle's, was present at the funeral.

On Wednesday afternoon a radio patriotic programme was held at the village school, which was much enjoyed. C. J. Bundy kindly loaned his radio for the occasion.

Watch for "The Barker," with Milton Ellis and Dorothy Mackail, next Friday and Saturday at the Orpheum.

CROWS' NEST PASS BASE BALL LEAGUE ORGANIZED

At a well-attended meeting held here on Thursday night last, the organization of the Crows' Nest Pass Baseball League was effected, with the following officers:

President—H. Bassenberry, of Pincher Creek.

Vice-President—Alex. Morency, of Blairmore.

Secretary-treasurer—H. Ross, of Pincher Creek.

Executive—Mr. Collins, Hillcrest; Dr. W. K. Murchie, Michel; Mr. A. Gentile, Coleman.

Delegates were present from Pincher Creek, Bellevue, Hillcrest, Coleman, Michel and Blairmore.

Affiliation with the Alberta Amateur Baseball Association was authorized. All players must have amateur cards.

In the past, after a home team had gone to some considerable expense in advertising a game, the visiting team failed to put in an appearance, for no reason at all. To eliminate this practice, all clubs will have to deposit the sum of \$20 with the league secretary before the league starts as a sign of good faith. Should any team fail to show up for a game after it has been advertised, its deposit shall be forfeited and paid over by the league to the home team.

In view of the fact that all league games must be finished before June the 21th, the following schedule was approved:

May 25—Hillcrest at Michel.

May 27—Blairmore at Coleman.

May 29—Michel at Pincher Creek.

May 31—Coleman at Hillcrest.

May 31—Pincher Creek at Blairmore.

June 2—Blairmore at Michel.

June 2—Pincher Creek at Coleman.

June 6—Michel at Hillcrest.

June 6—Blairmore at Pincher Creek.

June 9—Pincher Creek at Michel.

June 10—Hillcrest at Coleman.

June 12—Michel at Blairmore.

June 12—Pincher Creek at Hillcrest.

June 14—Hillcrest at Pincher Creek.

June 14—Coleman at Blairmore.

June 16—Coleman at Michel.

June 19—Michel at Coleman.

June 21—Blairmore at Hillcrest.

June 21—Coleman at Pincher Creek.

June 23—Hillcrest at Blairmore.

Pincher Creek will appear here tomorrow evening. Come out and root.

FATAL ACCIDENT AT COLEMAN

William Wilson, a miner employed at the York Creek section of the International mine, died on Tuesday night as a result of injuries sustained when he was crushed beneath a cave-in on Tuesday afternoon.

His working partner heard a warning shout from Wilson to jump and he got clear, but barely escaped with his life.

Wilson is a married man with one child. He has been acting keeper of records and correspondence for Sentinel Lodge, Knight of Pythias.

Funeral will likely take place this afternoon.

BILLY LANG WINS DECISION

Considerable interest was manifested in the championship boxing bout staged here on Saturday night last, in which Billy Lang, of Tacoma, Washington, won a decision over Kid Holland, of Drumheller, in one of the best ten-round exhibitions ever staged here.

A number of good preliminaries preceded the main bout, the chief of which was a four-round go between Red Renstrom, of Blairmore, and Reggie Tongue, of Bellevue, which was declared a draw.

The main bout was clean and well fought, and it is earnestly hoped that other bouts of a similar class will be staged here in the near future.

Kid Holland won a decision the previous week over Billy Barton, of Wayne, at Drumheller.

HANDFUL OF RATEPAYERS VOTE DOWN BY-LAW

The vote on the proposed swimming pool by-law on Wednesday resulted in 99 votes being polled—67 against and 32 for.

Very little interest was manifested in the vote, beyond a few who were influenced to vote against the by-law, and who were not given to understand the proposition in its proper light.

SPORTS MEETING

All interested in sport are requested to attend a meeting of the Blairmore Amateur Athletic Association, to be held in the Elks' hall on Wednesday next, June the 5th, at 8 p.m.

Business will include appointing necessary committees for July 1st; also drawing up programme.

Everyone should turn out and let us make the July 1st sports the best yet.

The new route maps describing the Red Trail from Winnipeg to Vancouver, via the Crows' Nest Pass, are now to be had from the local Board of Trade secretary, Mr. W. W. Scott. This map is published by the boards of trade of Lethbridge, Macleod, Cardston, Waterton Lakes, Pincher Creek, Blairmore, Coleman and Fernie.

WORLD HAPPENINGS BRIEFLY TOLD

Dame Emily Charlotte de Bathe, better known as Lily Langtry, left \$237,225.

Canada is the only Dominion that recorded an increase in British immigration in 1928.

Without explanation of the delay, the post office has delivered to Clifford C. Gilbert of New Haven, Conn., a letter mailed October 15, 1912, in Hartford.

After an illness of many months, Senator Robert Watson, 76, pioneer of the prairies, and for years prominent in western political circles, died at the home of his daughter, Mrs. J. Hilton McGregor, Brandon, Man.

Word of the death of Peter Richter, engineer on the first train to enter what is now Vancouver, on May 23, 1887, was received by D. C. Coleman, vice-president, Canadian Pacific Railway. Mr. Richter died at his home in Vancouver.

Harbor improvement bills passed in the House totaled \$10,000,000 for Montreal Harbor; \$10,000,000 for Vancouver Harbor; \$5,000,000 for Halifax Harbor; and \$2,000,000 each for the harbors of Three Rivers and Chicoutimi.

The West Indies is considering establishing a trade commissioner in Canada, Sir Edward Dugan, chairman of the West Indies conference, stated at Ottawa. Sir Edward is investigating trade possibilities in Canada.

Among the entrance scholarships awarded at Upper Canada College, are: The Gordon Southern Number 1 (value \$600 a year for three years)—Robert Kay Gordon, Edmonton, Alta.; Number 3 (value \$600 a year for three years), Edgar Stanfield, Edmonton.

Alberta Has Surplus

Closes Fiscal Year With More Money Left Over Than Ever Before

Alberta closed the fiscal year ended March 31, with more money left over in the provincial treasury in excess of expenditures than ever before in the history of the province. \$1,817,871, being the exact amount, according to an announcement made by Provincial Treasurer Hon. R. G. Field. The surplus for the previous fiscal period, ended March 31, 1928, was \$279,763, covering 15 months, because of the change of the fiscal year dates adopted last year.

The Board Of Health

Strolling along the quays of New York harbor, an Irishman came across a wooden barricade placed around the enclosure where emigrants suspected of suffering from contagious diseases are isolated.

"What's this boarding for?" he enquired of a bystander.

"Oh," was the reply "that's to keep out fever and things like that, you know."

"Indeed," said Pat, "give often heard of the board of health, but jabbers, it's the first time I've seen it."

Corns disappear when treated with Holloway's Corn Remover without leaving a scar.

Production Of Asbestos

Canadian asbestos, which is of the chrysotile or serpentine variety, is practically all obtained from the Eastern Townships, Quebec.

Will Search For Italy's Crew

Norwegian Vessel Is Fully Equipped For Long Voyage

An Italian expedition headed by Gianni Albertini left Bergen aboard the Norwegian steamer "Sual", to search for the lost members of the crew of the Polar dirigible Italia, which crashed in the Arctic last summer.

The party of 18 men on the "Sual", which was formerly the Helman, will seek from Svalbard to Franz Joseph Land for the so-called "Balloon party"—the men who were carried away in the bag of the Italia after the crash. The men in the Italia's gondola, under Umberto Nobile, were rescued.

The "Sual" is fully equipped with sledges and dogs and wireless apparatus. "The vessel stopped at King's Bay to take on more dogs before starting its long cruise. It is provisioned for 18 months voyage.

Italy Has Ambitious

Road Building Program

Fifty Thousand Men To Construct Motor Highways

Because Premier Benito Mussolini has ordered Italy soon to embark on the most ambitious road building programme any modern European state has attempted—perhaps the largest since the famous road builders of ancient Rome took their art into Britain. Within five years every corner of the peninsula will be accessible to the motorist. In all 40,000 miles of new motor highways are to be constructed. Fifty thousand men are to be engaged in working out the programme.

THE RESPONSIBILITY OF EVERY MOTHER

The child in the home is a never-failing source of joy, but, at the same time, a heavy responsibility to the fond mother. It is not infrequently happens that minor ailments of the child distress and puzzle her. She does not know just what to do, yet feels that not serious enough to warrant calling in the doctor. At just such times as these it is found that Baby's Own Tablets are the mothers greatest help and friend.

Most childhood ailments arise in the digestive tract—the bowels become clogged and the stomach sour. Baby's Own Tablets are a never-failing remedy for this condition. They are a mild but thorough laxative and through their action on the stomach they relieve the child's constipation and indigestion; break up colds and simple fever; allay the pain accompanying the cutting of teeth and promote health-giving sleep. Concerning them Mrs. W. Jennings Mackay, Ont., writes: "I have used Baby's Own Tablets and think so highly of them that I would not be without them. Please send me your little booklet on the care of children."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

Record Of Earthquakes

On the average over 500 earthquakes a year, or roughly one a day, are registered on the seismographs at the Dominion Observatory, Ottawa. The majority of these, however, do not involve any serious disturbance anywhere, and comparatively few originate in Canada.

No Asthma Remedy Like It. Dr. F. D. Kellogg's Asthma Remedy is distinctly different from other so-called remedies. Were this not so it would not have continued its great work of relief until known from ocean to ocean for its wonderful value. Kellogg's Asthma Remedy is the best of all asthma remedies, stands upon a reputation founded in the hearts of thousands who have known its benefit.

"Doctor, what shall I take to cure kleptomania?" "Don't take anything."

Only those who have no worries can afford to look worried.

Use Minard's for the rub down.

How To Dye An Old Rug

Successful Method That May Be Used In The Home

Old rugs may be dyed at home in a practical manner reads an article in the May issue of "Successful Farming."

"First of all, spread the rug out flat and scrub thoroughly clean with one can of rug soap and water. Let it stand for fifteen minutes and then spray well with cold water from the garden hose, or rinse with buckets of cold water. For a 9 x 12 rug use six packages of one of the standard, well known brands of dye designated for silk and wool mixtures. Set the color with a half pint of vinegar, full strength. The rug will take the dye nicely while still damp but the drying takes some time."

Fervish, pale, restless, and sickly children owe their condition to worms. Mother Graves' Worm Exterminator will relieve them and restore health.

A Logical Conclusion

Father—"Jimmy, why did you lick the little Jones boy?"

Jimmy—"You told me to."

Father—"I told you to? Why, my son, what do you mean?"

Jimmy—"Didn't you tell me the other day that it was more blessed to give than to receive?"

Father—"Yes, but—"

Jimmy—"Well, I had to give him a lick or receive one."

Four Hundred Years Ago

Luther's Catechism Is Still Being Used In Lutheran Schools

While text books change often and few studies today are a decade old, one yet in use can celebrate its four hundredth anniversary with the Lutheran World Congress, June 25 to July 31. "Luther's Catechism" was written four hundred years ago, and still is used in Lutheran schools. The Lutheran church is the largest Protestant church. Its membership is estimated from 75,000,000 to 80,000,000, mostly in Northern Europe and North America. The three books translated into most languages in the world are: The Bible, in about 80 languages; "Luther's Catechism," in 137; "Pilgrim's Progress," in 107. The most translated hymn is "Luther's A Mighty Fortress," in 150.

Bow Bells Out Of Order

The noted bells of Bow Church in the City of London, the bells that chimed the old tune, "Turn again Whittington," are not ringing. The bells are out of order and money for their repair not available.

Use Minard's for the rub down.

doesn't do you any good
if you're tired

At the end of a day's work, relieve nervous tension before eating. Wrigley's will refresh and tone you up—so that you're ready to enjoy your food.

Then, after meals, Wrigley's helps digestion, cleanses the teeth, removes all traces of eating or smoking—sweetens the breath.

The Desert Song

—BY—
VIRGINIA MORRIS
Copyright 1929 Warner Bros. Pictures, Inc.

"The Desert Song" is a Warner Bros. production of the same name, based on the story by Otto Harbach, Laurence Schwab, Oscar Hammerstein, and Frank Mandel.

CHAPTER I.

Greedy the copper coin of the sun was tossed, "you" son of a bitch, hand into the coffers of the desert. Now a purple radiance suffused the burning sands till the deepening twilight gradually wrapped its cloak all around. A few light hours before a pure silver moon had been poised in the cloudless daylight sky, but as night descended this assumed a golden red and seemed to retain, concentrated in its mellow circle, all the glow and color of the desert landscape that was now clothed in a nocturnal mantle.

Out of the range of the moon's brightness silver stars began to show their glittering lights. A soft cool breeze slowly blew up, shifting the sand drifts into new undulations that, stretched to far horizons, the majestic silence was so intense as to be almost audible.

One would have sworn that not a human being dwelt within ten leagues of the spot. Then all at once there in the indolence of desert space arose a faint stirring. For a moment nothing was seen, but as the stirring grew into a definite far-off sound, under the rich light of the orange moon there appeared a tiny speck where sand and sky met on the distant horizon. Over the crest of the dunes another speck appeared, followed by countless others. But now the leader was distinguishable as a rider on a fleet-footed horse, followed by a ribbon of other desert cavaliers clad in turbans and flowing robes, their rifles held high in their right arms to proclaim their warring spirit.

The swish of galloping hoofs raising granules of sand in a dusty trail behind them was at first the only sound to break the stillness. But as the last rider came into view over the crest of the distant slopes the voices of a hundred men filled the night singing the rousing bars of their tribal song, the song of the Riffs, those desert outlaws who have scorned the domination of the alien French.

Far across the desert these riders swept until they reached the crags where they had their secret encampment. Up a short trail their horses climbed to an opening in the rocks that formed a narrow cave. Here they dismounted. Some vanished where a cauldron was stewing goat's meat for the evening meal.

In the fire's light Sid El Kar, Lieutenant of the Riffs, examined some

messages that the horsemen had brought from scattered members of the tribe. The subordinate who stood beside him ventured a worried comment:

"I hope the French don't find us. This new leader of theirs, Captain Paul Fontaine—"

Sid El Kar uttered a vile oriental oath and spat in the sand. "To the devil with him. For five years the frog-eaters have been chasing our band and all they have caught—is our dust."

"But," put forward the other. "It is different this last week since Captain Fontaine has taken command. Three times they have nearly trapped us."

Sid El Kar's mouth framed a contemptuous sneer. He pointed to the tent that lay pitched closest to the fire.

"Our Red Shadow is a match for a million Captain Paul Fontaines!"

There were few faint hearts in the tribe band. They had confidence in their prowess as fighters and above all in the bravery of their mysterious and intrepid leader, the Red Shadow. A stranger out of nowhere, he had come to champion their cause against the tyranny of the French, who, he believed, had the desert people were best subdued by the imperious attitude of conqueror and vanquished. But even against the armed forces of the French garrison, the Riffs had succeeded in preserving their independence. Now led by this fearless desert Robin Hood, they defied the rule of the foreigners and defended their desert borders against the domination of those who failed to understand their customs or their emotions. Surely the Red Shadow was sent by Mahomet to protect his children! None knew whence he came, but when the signal fires were lit and the Riffs assembled, the Red Shadow always appeared as if by magic. Then when the good work was accomplished he rode off, where no one could say.

Attracted by the savory scent of the cooking, other members of the band who had watched their horses and tethered them, now drew near the fire. To their companions who had remained in camp they recounted the news they had gathered on their latest expedition. The whole town, it seemed, was talking of this Captain Paul Fontaine, who, with a regiment of French troops, had been sent to discover the Riffs' hiding place. General Biraube, commander of the post, was offering him every assistance with additional horses and troops.

They had picked up another juicy bit of gossip, too. Captain Fontaine was in love, madly enamored of a beautiful and chaf French girl, Margot Bonvalet, who had recently come out from Paris. Her father, so one said, was a lifelong friend of General Biraube, and it was at his quarters that she was staying—and breaking the heart of every handsome officer in the regiment. But her preference, it was clear, was for Fontaine who had promised her, with a gesture of bravado, that he would bring her the Red Shadow as a prisoner.

The threat caused a wave of meriment among the band. The Riffs would never fall under the power of the French!

"To kill the Red Shadow, Fontaine must kill us all!" shouted one of them lustily.

"May evil spirits possess them, Fontaine and—Margot Bonvalet!" added another fiercely.

All at once their talking ceased. They drew themselves to military attention. "For before them stood the Red Shadow himself!"

CHAPTER II.

Every line of his fine straight figure proclaimed the fighter. He wore a hood, which was held firmly around his forehead by a white band. He was shod in gleaming black military boots and his sword was sheathed in the scabbard that hung beneath the folds of his cloak. His

chin suggested that his face was as handsome as his physique but one could not be sure of this because his cheeks and eyes were concealed behind a scarlet mask. This, which he always wore, had helped to surround him with an aura of mystery for even his closest henchman had never seen him without it.

With a wave of his hand, the Red Shadow signaled his followers to be at ease. They relaxed from their military attitude and segregated into small groups. Their leader approached Sid El Kar and Haasi, who was another of his trusted fighters in spite of his advancing years.

"I overheard this talk of Captain Fontaine," he said, "and I scorn his threats! But I do not like the references to this girl they call Margot."

His listeners looked up in surprise. Then he continued, addressing himself to Haasi, "My friend, I want your promise. The sign of the Heart and the Head."

"I am gladly given," affirmed the oriental as he placed his right hand over his heart, then raised it solemnly to his forehead in the desert ritual that signifies a sacred pledge.

The Red Shadow lowered his voice to a whisper, "If anything should happen to me, no harm must ever come to Margot Bonvalet."

The two Riffs regarded him with astonishment.

"Master, I do not understand," said the perplexed Haasi.

"No," agreed the Red Shadow, "you do not understand. That is because you are Mohammedans while I am French."

"But," interrupted Sid El Kar, "none of the band knows you're French, except us two?"

"That is why I am asking this promise of you," insisted their leader. "No harm must ever come to Margot Bonvalet."

"Now, listen, Master," argued Haasi, "after all she's only a woman."

"That is the oriental in you!" retorted the Frenchman. "You cannot understand western love, but let me tell you this, I would not be your leader if it were not for this Margot."

Then for the first time he disclosed to the natives that he had led him, an outsider, to champion the cause of the Riffs and their people. A strange story it was that he told them! Eight years ago in Paris he had fallen in love with this girl. She had refused to take him seriously, he called him a silly boy—so he had enlisted in the French army to prove to her that he was a man. He set out from home with a contingent sailing for Morocco, under the command of General Fontaine, Captain Fontaine's own father.

This general had been notorious for his cruel treatment of the natives. Sometimes his own men used to refer to him secretly as the Butcher. One day he had commissioned the one now known as the Red Shadow to raid a certain village. The squire had refused to exercise this unnecessary brutality and his superior had struck him full in the face, cursing him and calling him a cowardly traitor. To escape the inevitable sentence that the court martial would pass for insubordination; he fled to the hills where the Riffs made their lair.

(To Be Continued.)

Every Day Circus Day

Capital Of Southern Morocco Never Lacks Entertainment

Every day is circus day in Marrakech, the capital of Southern Morocco, in which life goes on much as it did in the days of the Arabian Nights, according to a writer in the "Living Age." The hard-packed, reddish soil is an arena for all the fakirs and entertainers of North Africa, for the city is still the guardian of the old caravan route from the desert's rim to the sea.

Acrobats, snake charmers, story tellers, musicians, and the rest, daily and nightly entertain travelers who are armed with wicked knives, and display every skin shade from the blackness of the Hittite to the ebony of the pure negro.

Alberta Sugar Reels

T. George Wood, manager of Canadian Sugar Factories, Limited, at Raymond, Alta., announces that drills are busy in every section of the company's producing territory and that soil conditions are very good. "We expect to drill in about 10,000 acres of beets which is substantially higher than last season," he said.

Some girls get husbands, and some never learn the art of telling men how wonderful they are.

North: "I like to be alone."
West: "Well, you could stay at home evenings!"

W. N. U. 1787

Identity Still Kept Secret

Kaiser's Best Woman Spy Now Inmate Of Insane Asylum

"The Madonna of Antwerp," Germany's cleverest spy during the World War, who lured hundreds of the ablest allied intelligence agents to their death by the mere fascination of her blonde hair and marvelous blue eyes, has been locked up in an insane asylum at Cologne. The commitment papers in her case state that her illness is considered incurable, but her identity, jealously guarded by the Germans during the war, is not revealed even at this time. She remains the same mysterious and elusive personage who was dreaded and hunted for four long years, without success.

Her smile was as enigmatic and wistful as Giocanda's in the Louvre, of a certain childlike innocence, but as deadly as Borgian poison. Once she had extorted the information she sought from her victims her features grew hard as steel and she knew no mercy.

Rumors during the war had it that she was of noble Belgian birth. This was due to the fact that she owned a large medieval chateau on the outskirts of Antwerp, which she inhabited from 1912 onward. When Antwerp and the surrounding country fell before the German advance of September, 1914, and hundreds of thousands of people fled across the Dutch border, "The Madonna" stayed behind and soon revealed herself as having been an agent of the German Intelligence.

She directed the location of treasure and valuables in the neighborhood of the Flemish capital, left behind and hidden by the refugee owners of chateaux and country places, and in that way started the career which made her dreaded from one end to the other in the occupied territory of Belgium and French Flanders.

Rations Not Well Balanced

There is an abundance of Bibles and opium salts on the world's loneliest island, according to the Rev. R. A. C. Pooley, who had just completed several years as padre of Tristan da Cunha. "We have 150 pounds of salts and five Bibles for each islander," he said. "Our greatest needs are food, clothing, watches, paint, barometers, and seeds."

Mother: "Have you given pleasure by doing a good deed today, dear?"

Jim: "Yes, I gave Tommy Brown an awful licking."

Mother: "But that was not giving pleasure to another."

Jim: "Yes, you should have seen how pleased his little brother Bill, was."

When Food Sours

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been overstimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient, and safe.

Government and Business

Even Smallest Job Sometimes Is Very Costly

A couch in the office of a United States district attorney in a Middle West city was damaged. He notified the custodian of the building, who was collector of internal revenue. He notified the Treasury. The Treasury notified the supervising architect in Washington, who ordered the custodian to advertise for bids. The advertising cost \$35.50. The bids were forwarded to Washington, an award made, the contract signed, and work was done. The cost of repairing the couch was \$354. An inspector was sent to inspect the job. He didn't like it and had a row with the contractor. The chief inspector had to come out. He approved the job. Nine months later the contractor received Uncle Sam's cheque for \$3.94.

Regina Building Program

One Thousand Homes To Be Constructed This Year At Cost Of Four Million Dollars

One thousand houses, worth close to \$4,000,000, will be built this year in Regina, according to the estimates of the local contractors. Already there are 262 dwellings shown on the books of the building office, compared with 57 at the same time last year, and since construction last year amounted to 852 houses, worth a total of \$2,905,220, it is regarded as fairly certain that the expectations of the builders will be fulfilled.

There's always a trick in it. They sell you a car or a phonograph on credit, and then demand cash for gas and dance records.

Little Helps For This Week

"Continue in prayer."—Colossians iv. 2.

Do not afraid to pray,—to pray is right. Pray if thou canst with hope; but ever pray. Though hope be weak, or sick with long delay. Pray in the darkness if there be no light.

What'er is good to wish, ask that of Heaven. Though it be what thou dost not know, pray to see;

Hope to be perfect, though material leave. Forbid the spirit so on earth to be; But if for any wish thou dar'st not pray. Then pray to God to cast that wish away.—Hartley Coleridge.

Prayer is ever profitable; at night it is our covering, in the daytime it is our armor. Prayer is the key to unlock the day, and the bolt to shut in the night. Prayer sanctifies all our actions.

Fires In B.C.

British Columbia faces the most disastrous forest fire season of recent years, according to reports from the forest branch of the department. Lands which show that 133 fires have already been reported from different parts of the province with the fire hazard in the northern part of the province increasing with the warm weather.

Ten upwards of \$25 weekly growing mushrooms for us to culture or other waste product. Deliver to our nearest branch. Light pleasant work for men and women. For sample write to: DOMINION MUSHROOM CO. TORONTO

Why go to Peru?

When crude oil is so plentifully available here in North America, why does Imperial Oil Limited send 4000 miles to Peru for the crude from which Marvelube is made?

It is because Peruvian crude has lubrication properties which make it particularly desirable as a base for a superior motor oil.

That is why Marvelube is giving aircraft operators longer periods between engine overhauls and a greater margin of safety.

Marvelube meets the needs of the modern high-speed motor. In the air or on the road, because its carbon-free and heat-resisting super-properties are created by Nature herself.

Let Marvelube give you the benefits of better lubrication. There is a grade of Marvelube refined to meet exactly the specifications of your car, truck or tractor. See the Marvelube Chart at Imperial Oil dealers and service stations.

From far Peru comes a better crude to make a better motor oil/

IMPERIAL OIL LIMITED

EVERYWHERE IN CANADA

To Check "FLU," Grippe

Fights the Germs in the Throat Before They Invade Other Parts of the Body

EFFECTIVE PREVENTIVE MEASURES EXPLAINED

Simple precautions taken now will enable you to fight dreaded "Flu" which is sweeping rapidly through the whole country. The germs of influenza gain access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to gargle the throat three or four times daily with Nerville. Half a teaspoonful of Nerville in water makes a most efficient gargle. The germ-killing properties of Nerville quickly destroy any bacteria in the mouth or throat. If the chest is sore, if the throat is hoarse, if you have a cough—be sure, to rub the neck and chest with Nerville. Every drop of it will rub in, and out will come the congestion.

Of course it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which stimulate the eliminatory organs and rid the system of disease-breeding wastes. This combination treatment of Nerville and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

JOE JASDEC TAKES OFFENCE

Hillcrest, Alta., May 28, '29.
Editor Blairmore Enterprise.

Dear Sir:—These words appeared in your paper about me: "An exchange, in reporting a wedding, said that Miss Dorothy Dix had become the 'sparring partner' of Joe Jasdec. It was ever thus!" Do you realize that this has subjected me to public ridicule? The only way in which this mistake may be righted, as I think it is, will be by you putting a public apology in your paper immediately.

If you do not do this I will be forced to take much more drastic steps, which will be very inconvenient to you.—Yours truly, Joe Jasdec.

The item referred to above appeared among other jokes in our last week's issue and was copied from a United States paper. Had we realized that any one locally might have taken offence from it, we could easily have changed that name Joe Jasdec to Valentino Rinaldi, Dany; Lewin, Joe Atkinson or some other who could entertain a joke, and who realize that a large percentage of the women folk nowadays are "sparring partners."

A big jittery dance will be held in the arena on the night of Tuesday, June the 11th, under the auspices of Blairmore Lodge of Elks. Dancing from 10 p.m. till breakfast time, if you wish.

A tea end-sale of home cooking, plain and fancy towels, etc., will be held by the Catholic Women's League in the opera house on Thursday, June the 13th, from 3 to 6 p.m. [m23-3t

COWLEY HAPPENINGS

The dance which was put on at the home of Mrs. George Porter, under the auspices of the Cowley Women's Institute, on the night of May the 24th, was well attended, around eighty persons being present. Excellent music was furnished by Mrs. Milvain's orchestra and other talented musicians. Dancing was indulged in at a lively pace till the wee hours. An unusually good time was reported. Thirty-eight dollars was added to the Institute fund.

Some of the Blairmore citizens, who have been talking about the Cowley main street through the press, apparently are trying to camouflage Blairmore's mile and a half of cow-rody.

The monthly meeting of the Cowley Women's Institute was held at the home of Mrs. George Porter on Thursday night, May 23rd, when arrangements were made to have the trees cultivated around the cemetery and church yards.

Mr. and Mrs. Jack Kemmis, of Calgary, made a flying trip to these parts on Saturday, returning Sunday.

Mr. and Mrs. Eric Sandeman, parents of Vivian Sandeman, of the "Few" Ranch, are here from England to spend a summer's vacation.

The pool elevator, which has been under construction for around three weeks, is now near completion. The LeMire garage, which will be an asset to the town and which has been under construction for some weeks, is also near completion.

Miss Doris McEwen paid a visit to her sister Jean at Carmangay over the week end.

Mrs. Murphy, agricultural convenor of the province, is attending the Women's Institute convention being held this week in Edmonton.

Mrs. A. Swart is a Lethbridge visitor.

William Johnson, of Macleod, was sentenced to serve three years in the penitentiary for breaking and entering the government liquor store at Macleod.

GOLF TOURNAMENT TO OPEN HERE SATURDAY

Blairmore will be the scene of the district golf tournament on Saturday, Sunday and Monday next, when representatives will be present from Lethbridge and all intermediate points to the Crow's Nest. The programme for the three days is as follows:

Saturday Morning

8 a.m.—Qualifying round; men, 18 holes. Prizes for best net score and best gross.

10.45 a.m.—Qualifying round; ladies, 9 holes. Prizes for best net score and best gross.

Note—All qualifying rounds must be commenced at or before 12 noon.

To ensure the success of the tournament all players are requested to be on time.

Saturday Afternoon

2.30 p.m.—Mixed foursomes handicap; 18 holes. First prize for lady and first prize for man.

3 p.m.—Men's foursomes handicap; 18 holes. Two first prizes. (For those not drawn in mixed foursomes).

Saturday Night

9 p.m.—Dance in Greenhill Grill.

Sunday Morning

7.30 a.m.—First round championship; men, 18 holes; 16 competing.

8.15 a.m.—First round, second flight; men 18 holes; 16 competing.

9 a.m.—First round, second flight;

men, 18 holes; 16 competing.

9.45 a.m.—First round, third flight; men, 18 holes; 16 competing.

10.45 a.m.—First round championship; ladies, 18 holes; 16 competing.

11.30 a.m.—First round, first flight; ladies, 18 holes; 16 competing.

During the forenoon there will be stroke handicap competitions for men and ladies, 9 holes.

Sunday Afternoon

1 p.m.—Eights in men's championship; 18 holes.

1.20 p.m.—Eights in men's first flight; 18 holes.

1.40 p.m.—Eights in men's second flight; 18 holes.

2 p.m.—Eights in men's third flight; 18 holes.

2.30 p.m.—Eights in ladies' championship; 18 holes.

3 p.m.—Eights in first flight ladies; 18 holes.

3.20 p.m.—Men's stroke handicap; 18 holes. First prize. (For all men not in above).

4 p.m.—Ladies' stroke handicap; 9 holes. First prize. (For all ladies not in above).

Sunday Night

Annual meeting will be held in the Greenhill hotel at 8.30 p.m.

Monday Morning

8 a.m.—Fours in men's championship; 18 holes.

8.15 a.m.—Fours in men's first flight; 18 holes.

8.30 a.m.—Fours in men's second

flight; 18 holes.

8.45 a.m.—Fours in men's third flight; 18 holes.

9 a.m.—Fours in ladies' championship; 18 holes.

9.15 a.m.—Fours in ladies' first flight; 18 holes.

10.30 a.m.—Men's stroke handicap; 18 holes. First prize gross and first prize net.

11 a.m.—Ladies' stroke handicap; 9 holes. First prize gross and first prize net.

Monday Afternoon

1 p.m.—Final men's championship; 18 holes. First and second prizes.

1.05 p.m.—Final men's first flight; 18 holes. First and second prizes.

1.10 p.m.—Final men's second flight; 18 holes. First and second prizes.

1.15 p.m.—Final men's third flight; 18 holes. First and second prizes.

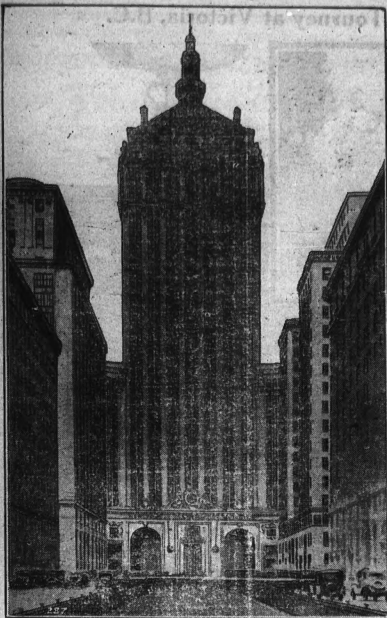

1.20 p.m.—Final ladies' championship; 18 holes. First and second prizes.

1.25 p.m.—Final ladies' first flight; 18 holes. First and second prizes.

1.30 p.m.—Tombstone competition for men not in above; 18 holes. First prize.

2 p.m.—Tombstone competition for ladies not in above; 9 holes. First prize.

Prices for the tournament are on display in the windows of Scott's Grocery.

The Gateway of C. P. R. Connections to New York

At the heart of New York, at 42nd Street is the New York Central Station where Canadian Pacific trains from Montreal and Toronto arrive and depart. The above is a photo of the New York Central building which is a part of the station building and is one of the outstanding buildings in a city of wonderful buildings. Standing almost forty stories high at the head of Park Avenue, it rises well above the high buildings surrounding it. It is of gold relieved by brilliant reds and greens and when lit by a battery of flood-lights at night it is one of the beauties of New York and can be seen for many miles around.

FISHING SEASON OPENS

ON JUNE 15th

Trout fishing in Alberta opens this year on Saturday, June 15. The following waters in the Province, outside the forest reserves, are closed to fishing, or are waters set apart for the natural propagation of fish, and the minimum fine for any person fishing in such closed waters is fifty dollars and costs, and in default of payment, to imprisonment for a term of not less than six months.

- (1) Flat Creek, Sullivan Creek and Pekisko Creek, and all other tributaries of the Highwood River.
- (2) The north and south forks of Fish Creek and tributary waters.
- (3) Bragg Creek, a tributary of the Elbow River.
- (4) Coal Creek and Camp Creek, tributaries to the Oldman River.
- (5) Cow Creek, a tributary of Tod Creek, which is a tributary of the Crownsnest River.
- (6) All tributaries, including unnamed creeks, of the Crownsnest River, west of Connelly Creek, and in-

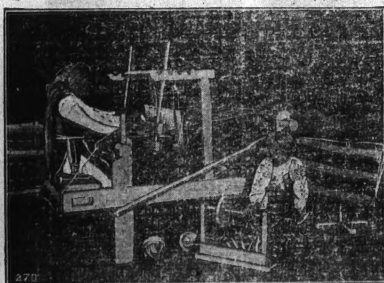

cluding the following: Connelly, Rock, Byrost, Gold, Lyon, York, Blairmore, Pelletier, Nez Pierce, McGillivray and Allisat Creeks, also Beaver Mines Creek, a tributary of the Castle River, Pine Creek and Cottonwood Creek, and their tributaries, which are tributaries to the Waterton or Kootenay River.

As far as this district is concerned, the above might be summed up more readily by stating that only the main rivers throughout the reserve will be open, including Race Horse Creek up to the Forks.

In angling or trolling for cutthroat, rainbow, Loch Leven or lake trout, a snag of hooks shall not be used, nor shall more than three hooks be used on any line, and such hooks shall be a sufficient distance apart to prevent a fish being hooked on more than one hook at the same time.

A new "rapid freezing" process just perfected at Halifax, guarantees a steady supply of sea fish to inland Canada and to foreign countries. This will greatly increase export trade.

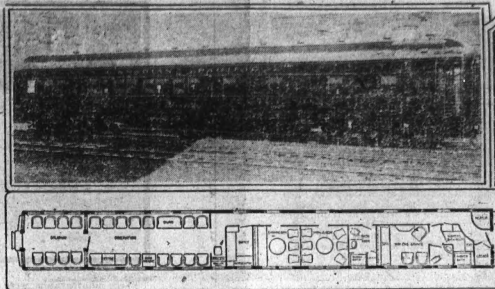

Foundation of National Culture

Two new Canadians from Roumania demonstrate the art of weaving at Regina.

Those who have in the past regarded the New Canadians from Europe as hewers of wood and drawers of water must, after the recent demonstrations at the Great West Festival at Regina, admit that these peoples have, with their native art, decidedly enhanced the cultural wealth of the country of their adoption. J. Murray Gibson, who sponsored the festival under the auspices of the Canadian Pacific Railway, even goes so far as to say that Saskatchewan and the other prairie provinces have within their borders the foundation of a National Culture finer than that of any other nation on earth. To this foundation, the first seed for which had been turned at the previous festival at Winnipeg, all the races which go to make up the peoples of the west have contributed—Finnish and Irish with their folk-songs and lore, Swedes and Slavs alike with their folk-songs and dances. Hardly a race known to civilization, old or new, but contributed to the festival some artistry which will make for the further development of that culture which being national, will be the means of welding to a still greater solidarity, those people who are Canada.

The movement for the attainment of this end is a popular one was demonstrated by the fact that literally thousands were unable to obtain admission to the exhibits and concerts and that western cities are vying with one another as the site of the next festival.

HIGH officials of the Canadian Pacific were much relieved when Dr. Ernest French, the Harley Street specialist, refuted the statement originating in London to the effect that mustard plasters were as beneficial as ultra-violet rays. During a long winter the Company has been engaged in building for use on the Trans-Canada special Solarium-Lounge cars equipped with "vita glass" windows which will admit the most beneficial sun-rays. It almost came to the question of whether the Company would scrap the new equipment and issue plasters to its patrons.

The new cars, designed for the rear end of the limited trains, will be the most magnificent cars ever to be used on a non-premium train on the continent. Given over entirely to the free use of the passenger, the lounge cars, besides the Solarium feature, have the added attraction of bath-rooms for men and women, completely and lavishly

equipped, separate lounge and smoking rooms, a buffet and a large observation room with tapestry covered chairs, divans and settees. There are, of course, ample writing facilities and a small library.

The sleeping cars designed for this train are also "different". Finished in l-o-u-n-g, a color note which is carried out in the upholstery, curtains and carpets, these cars contain in addition to the usual public space, two compartments, a drawing room and eight sections. Each section, as will be seen from the illustration above, is separated from its neighbor by a permanent head-board, which gives an added degree of privacy to the occupant.

With the locomotive, and complete with every modern comfort and safety appliance and device, the new Trans-Canada trains each represent an investment of well over a million dollars.

THOS. NAYLOR'S

NARROW ESCAPE

Rev. T. Naylor, formerly organist of Wesley church, but now of Frank had an experience two weeks ago that he will not soon forget. He left Pincher Creek, in which field he was preaching on that day, and not knowing the proper crossing at Dobble's Coulee, got into a hole and was thrown out of the buggy. He unhitched part of the harness and the horse got free and got up the farther bank. To secure his horse he walked a mile west of the bridge and led the animal to Pincher Station where he was to preach, but the congregation had dispersed. He borrowed a saddle to return to Pincher Creek. He was in water up to his shoulders and had to leave the buggy stranded in the creek.—From The Lethbridge Herald twenty years ago.

POWER OF ADVERTISING

Testimonial published in a Florida paper: "Thursday I lost a gold watch which I valued very highly. Immediately I inserted an ad in your list and found columns and waited. Yesterday I went home and found the watch in the pocket of another suit. God bless your paper."

Recently, while the editor of the Strathmore Standard was at work, trying to dash off news, two gypsy girls appeared on the scene and wished to tell his fortune, but he refused. They soon retired and a few minutes later the editor discovered that his earthly belongings (\$4 to be exact) had disappeared from his pocket. He thereupon let a yell and dashed madly down the street, looking for the girls, but they had left town. Now, the question arises, "Where did that editor get the four dollars?"

In just one week since the last snow fell, it has been necessary to scatter the streets with a dust laying preparation, which the council has purchased. This calcium chloride preparation is distributed by means of a seed drill, and promises to be effective. It is unaffected by rain and only three applications a season are said to be required. Although a new venture locally, it is used very extensively in Manitoba and the east.—High River correspondent.

We were the first to receive a license in connection with fishing this season. It arrived Friday last from Clareholm and entitles us to go to the very extremes in lying about fish and fishing.

An exchange remarks: "The reason they call ships sea is because sailors think they can handle them."

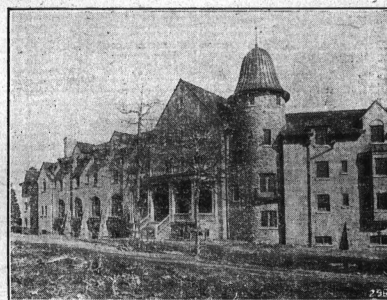

When intensely angry and searching for a fitting word to express yourself, say "Roosevelt," which, we are reliably informed, is the biggest dam known.

Oh, Hoot! Hoot!

Thirty years ago, it is said, a young Scot emigrated to Australia. He stayed there and prospered, but becoming homesick, decided to return to Scotland to live for the rest of his days. He wrote his two brothers and asked them to meet him at the station of the little town where they lived. He got off the train and was greeted by two bearded men whom he had difficulty in recognizing. "Why the beards?" he asked, when he was finally convinced that they were his brothers. They looked at him reproachfully, then one of them spoke up: "Dinna ye remember, Andrew? You took the razor w' ye."

A Jew and a Scotchman went into partnership. "It was dissolved at the end of six months. They went behind watching each other."

You take your pants to the tailor to be retailed, because you sit a lot. Now, be reasonable and get your bill receipted, too, for your tailor stands a lot.

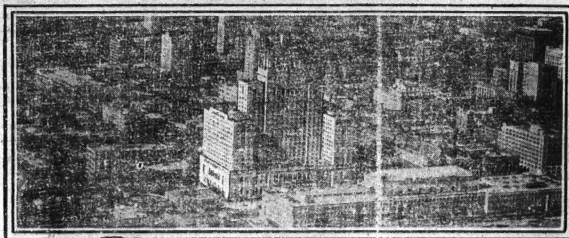

Hotel Longfellow Built

This hotel, the New Pines, at Digby, N.S., was built by Longfellow. Not, however, that he saw it, thought about it or even dreamed or imagined it. What he did do towards it was render immortal the Land of Evangeline, the beautiful Annapolis Valley of which Digby is the gateway, and so create a tourist lure.

The New Pines is being built by the Dominion Atlantic Railway to further aid in the development of tourist traffic in the Maritimes.

and, with the exception of the outdoor swimming pool, the lines for which were borrowed from those at Banff and Lake Louise, it is a handsome building of early English type of architecture. The opening of the Pines will shortly precede a three day festival at Annapolis Royal in commemoration of the three-hundredth anniversary of the arrival there of Sir William Alexander's Scottish colonists under the charter of King James I.

Ben Bernie to Open Royal York

Top, The Royal York Hotel as it stands out, even from the air. Below, Ben Bernie and his orchestra

"I hope you like it." To millions of radio listeners—in that announcement, coming from Ben Bernie, "the young maestro", is a fulfilled promise of symphonic dance music of extraordinary quality. Though Ben Bernie cannot possibly have appeared in person before the many millions for whom he is the favorite of radio broadcasters, his name and the music for which it stands have become household words throughout the world, emblematic of the best in symphonic jazz orchestration. It is for that reason that Ben Bernie and his World-Famous Orchestra have been chosen above all others to open the new Royal York Hotel in Toronto, an engagement of three weeks at the highest salary ever paid by a hotel.

For the past seven years Ben Bernie and his orchestra have been featured at the Hotel Roosevelt in New York, one of the best and most widely known hostesses of the Metropolis. The Ben Bernie music made the Roosevelt Grill the favorite rendezvous of dance lovers, young and old. Ben Bernie and his

Orchestra are also exclusive Brunswick recording artists and are featured by that company wherever phonograph records are played.

Ben Bernie's music is distinguished for the ingratiating rhythm of his orchestrations and the symphonic overtones applied to syncopation. It is pre-eminent among the "new jazz" orchestras for the quality of its music. Ben Bernie's orchestrations are arranged with the greatest of care and artistry and are played by an aggregation of artists each of whom is an outstanding master of his medium.

Unrivalled in its versatility, the Ben Bernie Orchestra offers, in addition to the familiar popular tunes, symphonic jazz renditions of classical symphonies. The Ben Bernie arrangement of "Schubert's" presents in synopsized form one of the most colorful of modern symphonies, striking a balance between the unreasonable gaiety of jazz and the austere solemnity of the classical, and appealing with equal force to lovers of the old and the new in music.

"Custom-Built" Designers Created the New Willys-Knight

Men of long experience in the "custom-built" field designed the new-style Willys-Knight Six. Their artistry is quite apparent in this triumph of modern beauty.

Grace of line, richness of color, perfect symmetry and proportion distinguish the new-style Willys-Knight Six as the outstanding creation of these style specialists, and make available—at a remarkable low price—the style and richness previously associated only with costly, custom-built cars.

A great automobile—a great engine—no valves to grind, no easily carbon removing. Practically fool-proof and wear-proof. No Willys-Knight motor, so far as we know, has ever worn out. Arrange for a demonstration at your earliest convenience.

"FINGER-TIP CONTROL"
 One button in center of steering wheel controls starter, lights and horn. Simple design, easy operation. No wires in steering post.

HON. R. FORKE GIVES HIS VIEWS ON IMMIGRATION

Ottawa.—The national development immigration scheme proposed by General A. D. McRae (Conservative, Vancouver North), is so vast and expensive that it should be carefully analyzed, declared Hon. R. Forke, minister of immigration, in the House of Commons when he replied for the government to the Vancouver member's want of confidence motion, which calls for the immediate reorganization of the department of immigration and colonization, moved in the House.

So far as his himself was concerned, he had his doubts as to the practicability of the McRae scheme, said Mr. Forke.

At least, Mr. Forke said, the member for North Vancouver had had something to offer on the subject of immigration, and his remarks were not negative in character. It was not hard, though, for a person to sit down and evolve a plan of immigration. Mr. Forke did not believe

though, that any scheme involving the expenditure of many millions of dollars would be successful.

He did not think that the settler loaded up with too heavy a financial load, had nearly the same chances for success as one who proceeded slowly. He saw difficulties in respect to the cost of clearing the land in the Peace River district.

He did not wish it said that he was opposed to immigration, Mr. Forke continued. Immigration of the right sort was essential. What he did object to was the bringing to Canada of a greater number of persons than could be absorbed in the industries of the nation at their rate of growth and expansion.

In order to alleviate the fear that Canada was becoming overrun with a foreign population, Mr. Forke asserted that 78 per cent. of the present Canadian population was Canadian born, 12 per cent. British born, and only ten per cent. was of foreign origin.

He would answer the allegation that thousands of Canadians had left Canada for the United States in recent times, by showing, he said, the comparison between present day immigration, and that of 1926. In 1926, 148,560 immigrants had come to Canada, while 159,068 had left for the United States. Certainly the tide had changed. Even if the Washington figure of 72,660 were correct, and he doubted its correctness, the number of persons leaving Canada for the United States today, had been decreased very materially.

Power Permit Given To British Company

For Development Of White Mudd Falls In Manitoba

Ottawa.—The Dominion government has granted a permit for the development of White Mudd Falls, in northern Manitoba, to the British Dominions Power Company (Canada). This was stated at the office of the minister of the interior.

It is understood that the permit is to continue in force for one year and if at the end of that time the company is prepared to proceed with development, a lease will be issued.

The permit was granted following an expressed request of the Manitoba Legislature. A resolution, moved by Premier John Bracken, requested that a priority permit be granted the British company.

Seeding Delayed In Ontario

Late Spring and Cool Weather Is Worry To Farmers

Toronto.—Apprehension over the backward spring season is being felt generally among farmers throughout the western and south-western parts of Ontario. Farmers are becoming much concerned over the delay to seeding caused by heavy rains and continued cool weather. In most instances throughout this section of the province seeding is from ten days to two weeks behind and in some districts three weeks.

The Niagara fruit district has not reported any appreciable damage to trees and vines, but practically all farm crops are delayed.

Workman Killed At Victoria
Victoria, B.C.—Charles Watson, of Vancouver, was instantly killed when he fell from the fifth floor of the new addition to the Empress Hotel, a distance of 100 feet. He was an employee of the Dominion Bridge Company.

Clergy and Tobacco

Heated Discussion Takes Place At Meeting In Toronto

Toronto.—Stormy scenes developed here at a meeting of the Toronto Centre Presbytery of the United Church over the adoption of a report by a special meeting on the use of tobacco by ministers.

Heated discussion took place regarding a section of the report which read: "That the Christian character of those who regard the use of tobacco as an innocent gratification should not on that account be impugned."

Dr. J. Kerr denounced the use of tobacco and objected to the adoption of the committee's report.

"I cannot accept Dr. Eland's report," said Dr. Kerr, "for it implies that the use of tobacco is an innocent gratification. I do not believe it is. I think it is a wasteful habit."

He presented a resolution later adopted, which deplored the effect of tobacco on the youth of the country.

Rancher Uses Airplane

Flies From Montana To Saskatchewan For Calf-Feeding Competition

Saskatoon, Sask.—G. G. Ross, of St. Kilda, Alta., who has a ranch of more than 200,000 acres on the borders of Saskatchewan, Alberta and Montana, might be called "the flying rancher."

He arrived in Saskatoon last week from Great Falls, Montana, by plane accompanied by two other airmen, E. T. Vance, of the Great Falls Airway Company, and R. Laidlaw, of Medicine Hat, Alta. Mr. Ross flew here from Chicago and Great Falls to see what progress boys and girls of this district were making in a calf feeding competition for which he supplied 1,000 calves last fall. The calves will soon be brought back to Saskatchewan as prime baby beef. The competition is being sponsored by the Saskatchewan Board of Trade.

One-Year-Old Stowaway

Was Hidden On Liner But Discovered By Customs Officials

New York.—Ella Valerio, one year old, and said to be the youngest stowaway ever apprehended at this port, at Ellis Island, in the disconsolate colony of immigrants who will have to go back to "the old country." Customs men discovered Ella, as her mother, Maria Dolores Valerio, a Portuguese stewardess of the liner President Wilson, was trying to carry her ashore hidden under a shawl. Ella made most of the trip hidden in a linen closet.

Supplied Gas For Zeppelin

Sufficient For Trip Back To Germany Obtained In France

Couers, France.—French naval authorities here supplied the German dirigible Graf Zeppelin with 3,000 cubic metres of hydrogen lifting gas. It was explained that the ship's lifting gas supply had been carefully apportioned to the load to be lifted and which, while sufficient for the trip to America, was not sufficient for the three additional persons aboard who intended flying back to Friedrichshafen in the dirigible.

Urged To Pay Interest

Montreal.—The government of Canada should pay interest on all money held by it and refundable to citizens. Such a course is required by equity as the government enjoys the use of such money pending repayment on account of taxes, etc. So states a resolution adopted by the Canadian Chamber of Commerce and sent to all members of the House of Commons and the Senate.

Was Lonely

Toronto.—Becoming depressed through loneliness, an English domestic employed in a local hotel who had been in Canada only a week, put long distance telephone call to her folks in London. Her employer announced that the \$50 costs for the phone call will be deducted from her wages.

Postmen In Civil Service

Ottawa.—V. C. Phelan, president of the Civil Service Federation, has announced that the Federated Association of Letter Carriers has affiliation with his organization. The Letter Carrier's Association has been in existence for some 35 years. They withdrew from the Civil Service Federation seven years ago.

All Had Same Name

Battle Creek, Mich.—On one day recently three residents of this city named Carpenter, died—Orrie G. Carpenter, 34; Frank R. Carpenter, 45; and Adam Carpenter, 58. The three men were not related.

A Day Of Thanksgiving

June 16 Is Unofficially Announced As Date Of Thanksgiving For Recovery Of King

London, England.—It is understood that Sunday, June 16, has been selected as the date that King George will appoint as a day of thanksgiving for his recovery from his recent grave illness.

The programme as "unofficially forecast, contemplates a special service at Westminster Abbey, attended by the King and Queen and other members of the royal family, to which the public will be admitted.

It is recalled the King, in a special message from Craigwell House on April 22, said he looked forward to joining with his people "on some appointed day" in thanking God not only for his own recovery, "but for the new evidence of growing kindness significant of the true nature of men and nations."

Seeking Air Mail Route

Swedish Aviator Thinks U.S.-Scandinavian Summer Service Feasible

Stockholm.—A possible summer route for air mail service between the United States and Scandinavia is being sought by Capt. Albin Ahrenberg, Swedish flyer, who hopes to set out about June 3, on a three-stop flight from Stockholm to New York.

Ahrenberg believes it is practicable to operate an air mail service along the northern route between mid-April and mid-September. The hop, skip and jump trip to New York should take about three days, Ahrenberg thinks.

CANADA WILL NOT BAN LIQUOR CLEARANCES

Ottawa.—The government of Canada is not disposed at present to accede to the request of the United States that clearances be prohibited on liquor shipments, destined for that country. The door however, is not closed and the Dominion government is ready to give consideration to such representations as it may receive on this important matter.

The attitude of the government on the question of refusing clearance to liquor cargoes was indicated in the House by Hon. W. D. Eulder, minister of national revenue. Mr. Eulder spoke in reply to speeches by J. S. Woods, Labor, Winnipeg North Centre, and others in the Progressive and U.P.A. ranks, in which the statement was made that Canada was guilty of an unfriendly act in not acceding to the United States request. Demand for government action on the matter has been indicated by the presentation of numerous petitions during the session requesting the refusal of clearance to liquor shipments.

The minister pointed out the difficulties which inevitably arose when a country law was located next door to one which permitted the manufacture and sale of liquor.

He expressed doubt as to whether refusal of clearances would result in stopping the flow of liquor into the United States. He pointed out that if Canada was to amend the Customs law so as to refuse clearances to liquor shipments, this country would require a new and larger preventive force in order to enforce the law.

EXPRESS SHIPMENTS BY AIR

Express shipments between Canada and European Continental countries are handled in part by air service under an arrangement reached between the Canadian National Express and the Imperial Airways, the French Air Union, the C.I.D.N.A. of France and other important continental air lines. The first shipment thus handled was flown recently from Croydon Aerodrome, near London, England, and consisted of a small lot of valuable Canadian furs shipped from Canada for a Paris salon.—Canadian National Railways photograph.

DELEGATE TO INTERNATIONAL SUFFRAGE ALLIANCE

Hon. Mary Ellen Smith, of Vancouver, the first woman to be appointed to a cabinet office in the British empire, who will address the International Suffrage Alliance in Berlin.

Submarine Disasters No Longer Possible

Naval Officers Consider Demonstration Of Rescue Great Success

Colon, Canal Zone.—For the first time in the history of the United States a navy submarine and its crew were raised from the bottom of the sea in Panama Bay. On May 17, the S-11 went down to a depth of 87 feet, was found by the submarine S-12, and was raised by the rescuer ship Mallard a few hours after going to the bottom.

Naval officers here were so impressed with the demonstration that they said no disaster such as followed the sinking of the S-51 or the S-4 was now possible.

The S-12 caught the signals just one hour after the first call from the S-11. Then the rescue ship Mallard started for the spot and sighted the bubbles at 10:30 a.m. Twenty-five minutes later a grapnel had been hooked on to the sunken submarine.

Resigns Chancellorship

Sir Robert Borden Has Tendered Resignation As Head Of Queens University

Kingston, Ont.—An announcement was made at Queens University that the chancellor, Sir Robert L. Borden, has tendered his resignation.

Canada's war-time prime minister was elected to the chancellorship five years ago to succeed E. W. Beatty, K.C., who was chosen as chancellor of McGill University, Montreal. Sir Robert presided at the convocation of arts and sciences graduates at the university nearly two weeks ago.

The name of James Richardson, of Winnipeg, is being prominently mentioned as a successor to Sir Robert, although nothing has been said at the university. Sir Robert's resignation will be considered by the senate and the trustees of the university.

Amend Bankruptcy Act

Ottawa.—Second and third readings were given in the Senate to a measure amending the Bankruptcy Act. Senator Jacques Bureau, the sponsor, explained that the purpose of the bill was to require persons seeking to have debtors adjudged bankrupt to take legal action in the judicial district of the alleged insolvent.

Joint Radio Control

Plan Is Endorsed By the Royal Society of England

Ottawa.—Joint control of radio broadcasting by the federal and provincial governments, with special preference given to educational programs, public information and entertainment, was endorsed as the best policy for the Dominion at a session of the Royal Society of Canada.

Another feature of the day's proceedings was the defeat of a recommendation submitted by a sub-committee which would have limited the printing of scientific papers in the official journal of the society.

The decision concerning radio control, made in response to a request by the Royal Commission on radio for the society's opinion, was reached largely as the result of a report made by Dr. H. M. Tory, head of the Federal Research Council.

Mrs. Comille Roy, rector of Laval University, delivered his presidential address, in which he cited the society as a model for development of co-operation among all the races and intellectual spheres from coast to coast in the Dominion.

Following his address, Mrs. Roy presented the Sir Joseph Flavelle medal for outstanding work in science to Dr. A. H. R. Buller, University of Manitoba, and announced that the J. B. Tyrrell medal for outstanding work in connection with the history of Canada had been awarded to Prof. George M. Wrong, University of Toronto. Mrs. Roy herself was made the recipient of the Lorne Pierce medal for excellence in popular literature, especially French-Canadian literature.

Following his address, Mrs. Roy presented the Sir Joseph Flavelle medal for outstanding work in science to Dr. A. H. R. Buller, University of Manitoba, and announced that the J. B. Tyrrell medal for outstanding work in connection with the history of Canada had been awarded to Prof. George M. Wrong, University of Toronto. Mrs. Roy herself was made the recipient of the Lorne Pierce medal for excellence in popular literature, especially French-Canadian literature.

Trouble In China

British Prepare Defences In City Of Canton

Canton, China.—British sailors landing from gunboats in the harbor in the Shamen quarter immediately began construction of defences in various parts of the English concession.

Gates and bridges were closed and guards were posted. In the native city the utmost tenseness prevailed with attacking Kwangsi troops known to be not far away, although there was no definite word as to their position. Sacking of the city, the largest in Southern China, was feared in the event of capture by the red Kwangsi element which was believed imminent.

THREE MEMBER GRAIN BOARD IS SUGGESTED

Ottawa.—In order to give Leslie Boyd, chairman of the grain commission, and Matthew Snow, who is a member, an opportunity to confer over recommendations they will submit to the agricultural committee of the House of Commons, the committee met only a few minutes this afternoon.

It was explained by Hon. James Macdonald, minister of trade and commerce, that the two commissioners who are witnesses before the committee have not had an opportunity to talk matters over, because Mr. Snow has been in the West and Mr. Boyd has been undergoing treatment in Montreal.

A three-member grain board, with headquarters at Winnipeg and some six sub-commissioners or field men to inspect elevators, deal with complaints and to investigate conditions in the various grain growing districts in Western Canada were urged by Mr. Boyd.

The sub-commissioners would be located at Edmonton, Calgary, Regina or Moose Jaw, Northern Manitoba and Southern Manitoba. There should also be additional elevator inspectors for the rash seasons. Three members of the board would be better than five as proposed, he thought. The members should meet often so that unanimity in its decisions could be obtained.

Mr. Boyd agreed with the suggestion that one member of the board visit the markets of Europe each year so that each member would get the overseas viewpoint once each three years. He thought the situation with the staff of the board under the civil service commission was fairly satisfactory.

As to the claims of Regina for the headquarters of the grain board, Mr. Boyd agreed Regina was more nearly the centre of the prairie grain growing districts than Winnipeg, but most complaints had to be adjusted at the company headquarters, which were at Winnipeg. It was for this reason he favored Winnipeg.

CHANGES IN THE GRAIN ACT ARE RECOMMENDED

Ottawa.—Changes in the Canada Grain Act were recommended to the consideration of the agricultural committee of the House of Commons by the board of grain commissioners, Leslie Boyd, chairman, and Matthew Snow, members of the board, were before the committee to explain and amplify their suggestions. The committee will further discuss these recommendations.

Many of the changes in the act suggested by the board would increase its power as against the present provisions requiring the order of the governor-in-council. The changes would facilitate the administration of the act without so often appealing to Ottawa.

Another recommendation was that the testing laboratory be under the supervision of the National Research Council instead of the grain board.

Although it was pointed out that the rate of commission charged on selling grain was fixed by the Winnipeg Grain Exchange, the committee took the view that the act should not be changed to relinquish such right of the board to regulate such charges if the occasion arose, when it would be advisable.

The question of the "hybrid" tickets blazed up just as the committee was completing its session. The board had been blamed on many occasions this year for not refusing to allow these tickets to be issued on the ground that they took away from the farmer the right to designate the terminal to which the grain should be shipped.

Not Sufficient Evidence

Crown Not In Position To Make Out Good Case Against Bronfman

Ottawa.—There is not sufficient evidence in the possession of the Crown to warrant the prosecution of Harry Bronfman for liquor irregularities. This statement was made in the House of Commons by Hon. Ernest Lapointe, minister of justice.

The minister's statement was as follows: "The department of national revenue transmitted to the department of justice the findings of the customs commission in a number of cases, and upon consideration of the same, proceedings were instituted by the department of justice, but in the case of Harry Bronfman, the department reached the conclusion that while, as found by the commission, there might be a prima facie case on the facts, the crown was not in a position to make out a good case in law, and that opinion was expressed to the department of national revenue by the deputy minister of justice."

Ask For Oxygen Tents

Were Urgently Needed For Victims Of Cleveland Disaster

Cleveland, Ohio.—An urgent appeal to all large cities near Cleveland for oxygen tents to be used in treating victims of the Cleveland clinic disaster which took 122 lives was telegraphed by officials of the Cleveland clinic hospital, where fifteen patients were reported critically ill.

Seven of the tents were now in use and at least eight more tents were needed, the telegrams said. Altogether thirty persons are in hospitals, their systems poisoned by the gas which twice exploded in the clinic building after the fire broke out in a basement X-ray storage room.

Aims To Make Good

Man From England Has Determination To Win Out In Canada

Toronto.—Worth "20,000 quid" (£20,000), as he termed it, George Westbury, of Ascot, England, arrived in Toronto with £2 in his pockets, determined to prove to England's submerged classes that a man with pluck and determination can make good in Canada.

"I have two pounds in my pocket now," said Westbury, "and I'd rather shoot through my head than cable home for more money."

Promise To Be Good

Des Moines, Ia.—Dean E. C. Calloway, who represented students and faculty of Des Moines university at the meeting of the Baptist Bible Union of North America, in Buffalo, N.Y., has obtained a pledge from the students that there would be no more rioting or violence when the trustees return.

Mr. and Mrs. Mancini, the former a son of Pete Mancini, former resident of Blairmore, now residing in Detroit, were motor visitors here on Tuesday, following a few days spent at Banff. They left Wednesday morning for the Pacific coast.

Through the courtesy of the Crows' Nest Pass Motors, the children of the Frank public school were privileged to listen in on the radio to the Empire Day programme. The machine was installed for the purpose by Mr. Linville and the entertainment was very much enjoyed.

Young Man Wanted

to act as salesman for one of the oldest manufacturing firms in Canada. Only those seeking a future need apply. State records and give address. Apply Box E for appointment in town.

The government has decided to stock a number of lakes in Alberta with perch, and it would be a good idea to remember Lee Lake in this connection. Rainbow and other species of trout have been planted in this lake on various occasions, but for some unknown reason have failed to survive, and it is the opinion of a great many that perch, being a much harderier fish, would thrive and in the course of time make a good game fish.
